Git GitHub GitHub Actions

GitLab CI/CD CI/CD pipelines

🏗 Architecture

Component-driven Design Systems

RESTful Web Perf SSR/SEO

🧠 Soft Skills

Problem solving Teamwork

Communication Adaptability

Attention to detail Continuous learning

👤 Summary

Frontend-focused Full Stack Developer with a strong passion for building intuitive and high-quality digital experiences. I enjoy working in collaborative environments, contributing to shared goals, and delivering effective, well-structured solutions. I take pride in writing clean, maintainable code and in contributing positively to team dynamics. Detail-oriented, adaptable, and committed to continuous learning. I approach each project with curiosity and a problem-solving mindset. Motivated to grow in environments that value innovation, collaboration, and professional development.

💼 Experience

Full Stack Developer | SI2001

📅 March 2023 – Present

📍 Battipaglia, Salerno, Italia

Worked on multiple consulting engagements for large enterprise clients, focusing on the design and development of modern, scalable front-end applications.

- Led development of responsive, high-performance UIs using Vue 3 and Angular; built shared UI libraries and design systems that improved team consistency and efficiency.
- Designed complex frontend features: dynamic dashboards, data visualisation tools, configurable interfaces, ensuring seamless UX and optimal performance.
- Integrated REST and GraphQL APIs in close collaboration with backend teams; contributed to server-side components using Node.js and Spring.
- Developed mobile applications with Flutter: full lifecycle from architecture to deployment, delivering performant, user-friendly solutions.

🔗 *Vue 3 (Composition API), Angular, TypeScript, Vite, Tailwind CSS, Flutter, GraphQL, REST, Node.js, Spring Boot, CI/CD, Monorepo architecture, GitHub Actions*

Full-Stack Developer Intern | SI2001

📅 Nov 2022 – Feb 2023

📍 Battipaglia, Salerno, Italia

- Contributed to CI/CD pipelines, code quality practices, and monorepo-based architectures.
- Built a complete distributed application: Spring backend, Angular frontend, MySQL persistence.
- Gained practical exposure to modern enterprise development practices in a consulting environment.

🔗 *Spring Boot, Angular, MySQL, CI/CD, Monorepo*

🎓 Education

Bachelor's Degree in Computer Science

📅 December 2022

📍 Università degli Studi di Salerno, Fisciano, SA

Thesis: *Comparison of ML algorithms for image classification* **GPA: 98 / 110**

A-Z Languages

- 🗣️ **Italian:** Native
- 🗣️ **English:** B2 Upper Intermediate

🔗 Projects

📦 SB Templates — Developer Starter Kits 🔗

A collection of reusable project templates designed to remove boilerplate and accelerate development workflows. Provides an opinionated structure covering architecture, design systems, routing, tooling, and best practices for both web and mobile applications. Focused on scalability, maintainability, and developer experience.

🔗 [Vue 3, Angular, Flutter, TypeScript, TailwindCSS](#)

📦 sb-floating-panel-vue npm

A Vue 3 library built on top of @floating-ui/vue to simplify floating panels, dropdowns, and tooltips.

🔗 [Vue 3, TypeScript, @floating-ui/vue](#)

📊 ML Algorithms for Image Classification

Bachelor's Thesis. Conducted a comparative study of machine learning algorithms for image classification, including KNN, Decision Trees, Random Forest, SVM, and Neural Networks. Worked with MNIST and Fashion-MNIST datasets, focusing on model evaluation and performance optimization. Improved classification accuracy through hyperparameter tuning and identified Fashion-MNIST as a more robust dataset for complex scenarios.

🔗 [Python, Scikit-learn](#)

🌐 Personal Portfolio — [stefanobiddau.com](#)

🌐 stefano-biddau-portfolio

Designed and developed a modern personal portfolio to showcase projects and technical skills, with a strong focus on performance, SEO, and clean user experience. Built using a modern SSR approach to ensure fast load times and optimal search engine visibility, with attention to responsive design and maintainable structure.

🔗 [Nuxt 4, Vue.js, TypeScript, TailwindCSS, SEO](#)

⚖️ Studio di Avvocati Romano — [studiodiavvocatiromano.com](#)

Developed a modern and elegant website for a law firm, aimed at presenting services and strengthening its digital presence. Focused on clarity, accessibility, and SEO to improve online visibility, combining refined UI design with performance-oriented development.
